

KEY STAGE 1 WEEKLY LEARNING MAT

week beginning 6.4.20

This week's theme is Easter!

MATHS ZONE

ENGLISH ZONE

TOPIC ZONE

Recall number pairs to 10 and use these to work out other number facts. For example, if $6 + 4 = 10$, we can use this to work out that $16 + 4 = 20$. Please practise number pairs to 10 and 20, and say or write them in different ways:

$6 + 4 = 10$
 $4 + 6 = 10$
 $10 - 6 = 4$
 $10 - 4 = 6$

Y2s: use your number pairs to 10 to work out your number pairs to 100 (e.g. $60 + 40 = 100$).

Play <https://www.topmarks.co.uk/maths-games/hit-the-button>

Y1s: choose 'Number Bonds' then 'addition within 10'.

Y2s: choose 'Number Bonds' then 'make 100 (tens)'

https://www.kidsgen.com/events/easter/easter_poem.htm

Some things that Easter brings.

Read the poem out loud.

Can you remember it without looking at it?

Copy the poem in your neatest handwriting. Can you write an Easter poem similar to this one?

Design an egg. This could be a paper or card one, or you could have a go at painting a real hard-boiled egg!

Here's one our favourite assembly songs for this time of year...it's got a catchy tune and the lyrics are included. Can your child learn 'Spring Chicken' in time for Easter?

Maths Shed

<https://play.edshed.com/>

Log on with the username and password that you have been given. Choose 'play', then 'Number Bonds' then click on the + sign for 'Bonds to 10'. Stick at easy level for now.

Y1s: have a go at bonds to 10.

Y2s: you can try bonds to 20 as well.

Number Pairs Card Game

For this game, you will need to make two sets of 1 - 9 digit cards plus two extra 5s.

1. Lay the cards out on a flat surface, face down so you can't see the digits.
2. Take turns to turn over 2 cards at a time, if you get a number bond to 10 (numbers that add to 10), you keep the cards.
3. Once all the cards have been turned over, whoever has the most pairs, wins!

Y2s: You could put a 0 on the end of each number to turn it into a number pairs to 100 game!

Spelling Shed

<https://play.edshed.com/>

Log on with the username and password that you have been given. Choose 'play' then 'Stage 1 and 2', then 'play'. Stick at easy level for now.

Make sure sound is switched on.

Repeat and try to beat your score each day!

Find 3-5 nouns around the house/garden. Then tell your adults as many adjectives as you can think of to describe the noun. For example: *ball* (noun); adjectives to describe it: *smooth, round, shiny, colourful*. You could then have a go at writing some sentences using your words.

Y2s: You could also think of as many verbs as you can to go with each. So for 'ball' you could think of 'throw', 'catch', 'roll', 'bounce'.

Use the internet to find out how other countries celebrate Easter. For example:
 Australia
 Greece
 France
 Mexico
 Austria
 Bermuda
 Italy

Rolling Eggs Investigation

<https://www.science-sparks.com/rolling-eggs/>

Use a hard-boiled egg for this eggciting eggsperiment! How long does it take for an egg to roll down a ramp? Try wrapping the egg in different materials - fabric, bubble wrap, kitchen roll, etc. Record the times on a simple table and compare. Brilliant Betty will help you. Remember to keep it fair - start from the same place every time.
